# IS 700: National Incident Management System: An Introduction

Crawford County Volunteer Training Session

# Course Objective

 Demonstrate basic knowledge of the National Incident Management System (NIMS)

#### What is NIMS?

- Comprehensive, national approach to incident management that is applicable to all jurisdictions
- Applicable across all incidents regardless of complexity or size
- Provides a set of standardized organizational structures that improves integration among jurisdictions & disciplines

#### **NIMS**

Established in 2003 through HSPD-5

Federal & local agencies required to use NIMS in their incident management as a condition for preparedness grants

# м

# NIMS Components

- Preparedness
- Communications & Information Management
- Resource Management
- Command & Management
- Ongoing Management & Maintenance
- These components are designed to work together.

# Preparedness

- Provides a combination of:
  - □ Planning, training, & exercises
  - Personnel qualification & certification standards
  - Equipment acquisition & certification standards
  - Publication management processes and activities
  - Mutual aid agreements and compacts

# National Response Framework (NRF)

 A guide to how all-hazard response should be conducted

A basic premise of NIMS & NRF is that incidents should be managed at the lowest jurisdictional level possible

# .

# NIMS & Elected/Appointed Officials

- Should understand local laws & regulations pertaining to emergency management & incident response
- Provide guidance to their jurisdictions with policies for NIMS implementation
- Help establish relationships & agreements with other jurisdictions & non-gov't organizations as appropriate
- Maintain awareness or critical infrastructure & key resources within their jurisdiction

# Mutual Aid Agreements

NIMS encourages jurisdictions to enter into mutual aid & assistance agreements with other jurisdictions/organizations from which they can receive emergency assistance

### 100

# Types of Mutual Aid

- Automatic
- Local
- Regional
- Statewide/intrastate
- Interstate
- International
- Other (non-gov't, private sector)

#### **Procedural Documents**

- SOPs or Operating Manuals
- Field Operations Guide or Incident Mgmt Handbook
- Mobilization Guide
- Job Aid

# **Protocols & Training**

 Protocols establish guidelines for actions under various specified conditions

- Personnel with roles in emergency response should have appropriate training to improve all-hazard capabilities
  - Exercises are good hands-on training opportunities

#### **Exercises**

- Should include:
  - Multiple disciplines & jurisdictions
  - Have participation from non-gov't & private sector organizations
  - Cover all aspects of preparedness plans
  - Contain a mechanism for corrective actions
- Various types of exercises
  - ☐ Full-scale, tabletop

# Communication & Information Management

- Communication systems need to be:
  - □ Interoperable communicate within & across agencies/jurisdictions
  - □ **Reliable** function in any kind of emergency
  - □ Portable built on standard radio technology
  - □ Scalable use on small or large scale
  - □ Resilient perform despite damaged/lost infrastructure
  - Redundant use of alternate communication if primary systems go out

## ×

#### Communication

- Use plain language!
  - □ It's safer
  - □ Facilitates interoperability
  - □ Ensures that information is understood

 Tactical language should only be used for specialized incidents (i.e. terrorist activities)

# Resource Management

- NIMS standardized approach to resource management based on:
  - □ Consistency
  - □ Standardization
  - □ Coordination
  - □Use
  - □ Information management
  - Credentialing

# Steps of Resource Management

- Identify requirements
- Order & acquire
- Mobilize
- Track & report
- Recover/demobilize
- Reimburse
- Inventory

# Credentialing

- Objective evaluation & documentation of an individual's
  - □ Current certification, license, or degree
  - □ Training & experience
  - □ Competence or proficiency

# Command & Management

- Command: the act of directing, ordering, or controlling by virtue of explicit statutory, regulatory, or delegated authority at the field level
- Coordination: the process of providing support to the command structure and may include incident prioritization, critical resource allocation, communications systems integration, and information exchange

#### **Elements of Command**

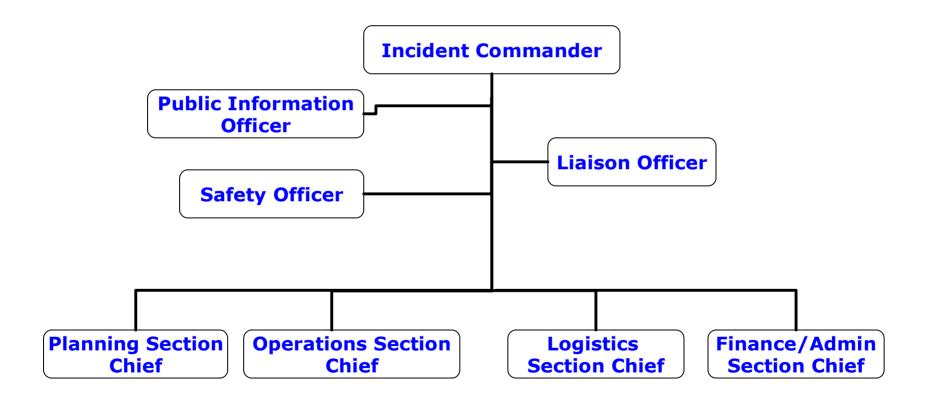

Incident Command System

Multiagency Coordination Systems

Public Information

### ×

#### ICS Structure

# Multiagency Coordination System

A process that allows all levels of government and all disciplines to work together more efficiently and effectively

#### **Public Information**

- consists of the processes, procedures, and systems to communicate timely, accurate, and accessible information on the incident's cause, size, and current situation to the public, responders, and additional stakeholders
- must be coordinated and integrated across jurisdictions & agencies

# Knowledge Check...

- What are the 5 components of NIMS?
  - Preparedness, Communications & Information Management,
    Resource Management, Command & Management, Ongoing Management & Maintenance
- What is a basic premise of NIMS & NRF?
  - Incident should be managed at lowest jurisdictional level possible
- Who has overall lead of incident?
  - Incident Commander

# Course Objective Review

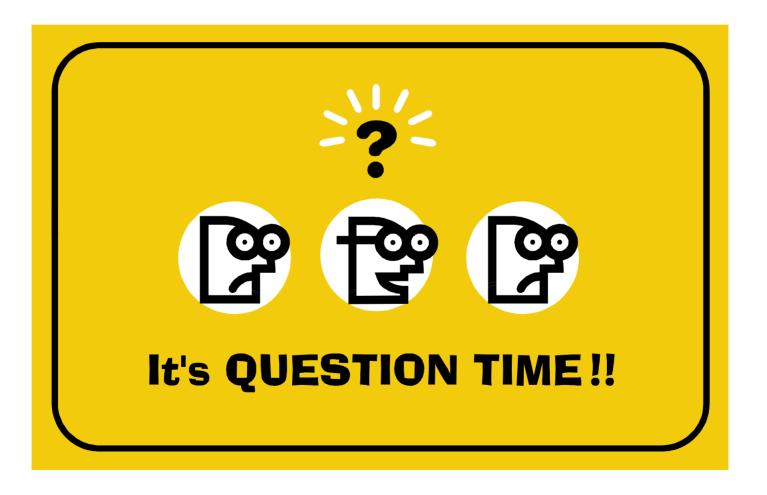

You should now be able to understand the basics of NIMS

#### Course Exam

- Exam for course is available online www.training.fema.gov/EMIWeb/IS/IS700A.asp
- More detailed course is also available on the website
- Can refer to course notes/information as needed when taking test
- Please complete multiple choice exam; 75% correct is required to pass
- Provide a copy of certificate completion to me for my records

# м
